

R.D. Ploughing

The Royal Doulton Ploughing series was introduced in 1915 and it had been withdrawn by 1949. It is not recorded who designed this classic from the Rural England school of series. I have always had an affinity for this particular series. It reminds me of my father; Pat was born in 1919 in the back blocks of New Zealand and I was reared on my fathers stories of the years during the depression that he spent on the back of stock horses or working horse teams. I remember going down the farm with my mother to where dad was working the paddocks and having picnic as the sun set. Dad always wore a old hat similar to the men depicted in Ploughing scenes; he used to use an old neck tie as a belt. This was in the 1960's and Dad did his work with a tractor, but I guess the lessons of the depression where not easily forgotten. This page is dedicated to memory of my father

Royal Doulton Ploughing Sandwich Tray; D.5650; dated August 1936; 28 cm (11") long To date I have identified 8 scenes, the first 6 bear the names that Louise Irvine gave them, the last 2 (scene 7 & 8) were named by me, both of these scenes I found on the side of a salad bowl with the pattern number D4934, but I have since found them on other items.

There are 4 pattern numbers registered against this series; D.3827 introduced circa 1915 D.3854 " " 1915 D.4934 " 1929 D.5650 " " 1936 1. "Pair of horses pulling plough with farmer steering."
