

Plates & Trays

Royal Doulton produced an absolute panoply of plates, trays & pin dishes and wall chargers. If you can think of it, they produced it. The most common of all Series Ware shapes are the rack plates; I guess one would have to call it the universal Series Ware shape. Of course there are three styles of rack plate and I have seen them in at least six sizes. There are at least 15 different shaped serving plates and trays, without taking the pin and conserve dishes into the count. Also in this category I have included Chargers (Wall Plaque) and Babies plates and feeding bowls; so follow the read more tab for the full list...
