

Dickens Toilet Sets

Royal Doulton produced thirteen shapes of toilet sets, to date I have only had a complete example of a Dickens Ware Mayfair Toilet set, but I have now found a Flagon shaped wash bowl, so who knows what other shapes it was produced in. This page will also be the home of Shaving mugs, but to date I have never seen a Dickens Ware example - can you help me? Fittingly I have decided that this will be the last of the earthen ware shapes page. So click the read more tab and see what is to offer....
