

McHugh Shapes Other

This page is the home of the McHugh shapes that do not have a shape number and are not figural. There really are some interesting shapes in this category, such as wall pockets, troughs, wreaths and centre pieces, but of course it also covers graduated jugs. So follow the "Read more" link to see what takes your fancy.
McHugh Pottery

Speicmen Vase

height 9 cm (3.5") This wee pot may have a number on the base, it is hard to make out but I feel it could be 29 - can anybody confirm this?

Jardiniere

dated 1935

height 18.5 cm (7.25")

Please note the variation in the rim of the Jardiniere above and example below. The Jardinere below is considerable bigger than the example above.

height 22 cm (8.6") Flat Bowl

29.5 cm (11.6") diameter & 6 cm (2.3") tall No idea what this flat bowl is for. It could be a saucer for a Jardiniere, but as the curator of the Erin May collection pointed out it would have had to of been a very large Jardiniere. It could be a float bowl, or maybe it was just a fancy dogs bowl.

Planter

height 16 cm (6.25") This is an unusual shape, it almost appears to be a pot sitting in a saucer, but it is all on piece.

Posy Ring or Wreath

height 5 cm (2") & diameter 17cm (6.75")

Image courtesy of Graham Mulligan of www.clockwisetas.com.au

Posy Vase

height 7.5 cm (3") & a top diameter of 18.75 cm (7.5")

Flower Aid or Frog

height 6 cm (2.37")

Tapered Sided Trough Note the Original Wire Flower Aid

27 cm (10.6") long and 10 cm (4") tall

Rectangular Trough

25.2 cm (10") long and 11 cm (4.37") tall

Flower Bowl with Flower Aid Lid or Centre Piece

height 12.5 cm (5") and 20 cm (8") diameter The Erin May Collection has an example of this shaped marked 18.

Tall Flower Bowl with Flower Aid Lid or Tall Centre Piece

height 18 cm (7")

Wall Pocket- Bulbous Base

height 15 cm (6")

Wall Pocket - Flat Base

height 15 cm (6") There is at least one other wall pocket shape, but at this stage I do not have a photo of it. McHugh Tea for One Teaset

Teapot is clearly marked "H. McHugh, Tasmania, 52" where the other items are marked "McHugh Tasmania". Close up of Teapot from the teaset. Teapot - Attributed
24 cm (9.5") from edge of handle to lip of spout & 12.5 cm (5") This teapot is unmarked, it has been attributed to McHugh. I feel that this is a Campbell glaze, but the ball on the lid is very McHugh. Cup
6 cm (2.4") tall Is there a saucer to go with this cup? I really have no idea, I have now seen maybe half a dozen of these, but to date no saucer. Polka Dot Cup

Dated 1935 8 cm (3.12") tall Image courtesy of Graham Mulligan of www.clockwisetas.com.au Creamer 1/4 Pint

Creamer 1/2 Pint

Creamer 3/4 Pint

Each of the three creamers above were clearly marked to the base with their size. I have made them 3 different sizes to representative of eacks capacity, this is not an accurate depiction of each of the sizes.

A set of three McHugh jugs side by side from 3/4 of a pint down to 1/4 of a pint. Milk Jug approx 1.5 pints 12 cm (4.75") tall 20 cm (8") across top from edge of handle to lip of spout. Open Sugar Bowl

9 cm (3.5") diameter & 5 cm (2") tall

Tobacco Jar or Humidor

height 11 cm (4.4")

Minature Potty - A Salesman Sample

height 4.5 cm (1.25")

Coffee Mugs

height 11 cm (4.32")

height 11.5 cm (4.5")

Cresent Mug

dated 1935

10 cm (4") tall

Image courtesy of Graham Mulligan of www.clockwisetas.com.au

Squat Mug

8 cm (3.12") tall

Image courtesy of Graham Mulligan of www.clockwisetas.com.au
