

W&R Carlton Ware Blush Ware Christmas Cactus

Originally, when I was building my W&R Blush Ware fact files, I could not find a name for this pattern so I called it Daffodils as that is what the flowers reminded me of. But Harvey at Carlton Ware World has pointed out that this pattern has been known for some time as Christmas Cactus. After some consideration I have decided to go with this name as the image resembles Christmas Cactus more than it does Daffodils.

The one problem that this causes is that I supplied this photo to the Kosniowskis for "Carlton Ware - The Complete Guide"; this photo appears on page 9 with the name Daffodil, which is now not correct.
