

## R.D. Gondoliers

It is easy to see why Royal Doulton selected Venice and the Gondoliers for a subject of one of there series. There is nothing quite as romantic or as enigmatic as Venice and the Gondoliers who ply this beautiful ancient cities canal.&nbsp; There is nothing quite as beautiful as the Rialto Bridge, Piazza San Marco or the Grand Canal, and nothing as romantic as a lovers being serenaded as they are rowed along the canals being serenaded by a gondolier.
