

R.D. Cotswold Shepherd

The Cotswold Shepherd series was introduced into production in 1933 and it was withdrawn in the early 1950's. There is only one pattern number set against this series: D5561. It has always been a very popular and it has always seemed to be in short supply. There are 20 scenes in the Cotswold Shepherd. I am still missing many of the scenes from this series, so if you can help fill any gaps please email me any photos you have.
